Alphacrucis University College (AC) is committed to providing academic pathways for students. The purpose of undergraduate certificate courses is to provide an introductory body of knowledge in the relevant discipline area. It qualifies individuals with knowledge and skills for further study, professional upskilling, employment and participation in lifelong learning. These courses of study were initially developed in response to community and industry need based as a result of the COVID-19 crisis. Undergraduate Certificate qualifications have been designed and accredited to enable graduates to demonstrate the learning outcomes expressed as knowledge, skills and the application of knowledge and skills specified in the Undergraduate Certificate descriptor.

These courses of study introduce students at a foundation level to the sources and content in the relevant discipline areas and provide training which emphasises vocational application. Graduates will have writing and research skills, and be able to demonstrate an ability to apply a body of knowledge in a range of contexts. These courses of study draw on AC's established expertise in the relevant discipline areas.
